## 2009 Think Tank 'River Run Vineyard' Napa Valley Cabernet Sauvignon

*Think Tank's River Run Vineyard is situated in a prime location in California's famous Napa Valley.*

That would be St. Helena, in the middle of the valley, which some have described as "Napa Valley's Main Street." St. Helena offers sophisticated experiences including boutique wineries, highly acclaimed restaurants, luxury lodging and spas, agro-tourism adventures and refined shopping — all with the authenticity of the original Napa Valley.

Some of the valley's finest vineyards call St. Helena home, and River Run Vineyard is among them. The Cabernet Sauvignon grapes grown there are particularly expressive, and produce wines with alluring fruit flavors — just the way Think Tank founder Michael Giarraputo likes them.

Think Tank's 2009 River Run Vineyard Cabernet is a rich and smooth wine, showing polished tannins, a lush mouthfeel and excellent length. It deliciously demonstrates Giarraputo's commitment both to the land and to crafting world-class wines.

### At-A-Glance
